Update

January 29, 2021

The National COVID-19 Taskforce has decided to allow inter-megazone movements of people and vehicles, but only within Thimphu. However, vehicles of odd and even numbers will alternate, until Monday (February 1, 2021).

Vehicles with odd numbers are allowed today.

Stranded individuals who are registered with 1010, and choose to travel outside Thimphu before Monday, need to be tested for COVID-19. Others who plan on exiting the capital after Monday do not require testing and are urged to plan accordingly.

(Clarification: In responding to queries, no tests are required for people moving within Thimphu Dzongkhag)
