1- Patient care

The President of the Republic, His Excellency Faure Essozimna GNASSINGBE, sends his warm congratulations to health professionals and to the entire Togolese population, for their support for the measures taken by the Government to prevent the spread of the COVID pandemic -19.

The Government informs the Togolese population that due to the evolution of the COVID-19 epidemic in our country, the Head of State has decided that the CHR Lomé-Commune be dedicated only to the management of diseases infectious.

For this purpose, urgent arrangements have been made and COVID-19 patients are transferred this Saturday, March 21, 2020 to said CHR. The patients who were hospitalized there were transferred to other public hospitals in Lomé.

Consequently, consultations and admissions at CHR Lomé-Commune are suspended until further notice. Patients are now asked to go to the CHU Sylvanus Olympio, the CHU Campus, the Bè Hospital or other public or private care establishments in Lomé.

2 - Availability of basic necessities

It has been observed, during this period of the coronavirus pandemic (COVID-19), that certain economic operators engage in speculation on the prices of essential products or sometimes refuse to sell certain items, in particular:

- Milk,
- rice,
- wheat flour,
- vegetable oils,
- tomato concentrates,
- sugar,
- household soap,
- pasta,
- hydroalcoholic gel,
- protective masks and gloves, etc.

These practices, which create artificial shortages in the markets, are contrary to the provisions of Articles 13 and 18 of Law No. 99-011 of December 28, 1999 relating to competition in Togo.

In addition, the Government reminds owners of supermarkets, convenience stores, shops and pharmacies to respect barrier measures, in particular the safe distance, hand washing, limiting the number of customers and controlling the

temperature at the entrance.

The Government appeals to everyone's conscience for strict compliance with these provisions in these difficult times and informs economic operators that unannounced checks of trade inspectors, health workers and law enforcement officials will be carried out on the premises. entire territory as of this day.

Any offender will be severely punished in accordance with the laws in force.
