#### World Health Organization Reports that the Federated States of Micronesia is Once Again COVID-19 Free

PALIKIR, Pohnpei—On January 29<sup>th</sup>, 2021, the World Health Organization reported that the Federated States of Micronesia (FSM) is once again COVID-19 free. As the only confirmed case in the FSM, discovered through a PCR test on January 7<sup>th</sup>, 2021, was deemed to be negative and historical after subsequent antibody and antigen tests, the FSM has once again joined the ranks of countries without any cases of COVID-19.

“This is great news for the people and Government of the FSM,” President Panuelo said in a statement. “It is a testament to the continued dedication of our National and State medical teams, who have been collaborating diligently, and in partnership with our friends and allies at the U.S. Centers for Disease Control & Prevention and the World Health Organization. While the Government’s top priority at this moment is the implementation of the COVID-19 vaccination program, it is worth taking a moment to thank the collective efforts of our Nation’s medical experts, and our international bilateral and multilateral partners, for their tireless efforts to keep our Nation safe.”

As of January 29<sup>th</sup>, 2021, the FSM is COVID-19 free.

The screenshot shows the WHO Coronavirus Disease (COVID-19) Dashboard. The page title is "WHO Coronavirus Disease (COVID-19) Dashboard" with a sub-header "Data last updated: 2021-01-29, 8:31pm CET". The dashboard includes a navigation menu with "Overview", "Data Table", and "Explor". The "Data Table" tab is active, showing a table titled "Situation by Country, Territory & Area". The table has columns for Name, Cases - cumulative total, Cases - newly reported in last 24 hours, Deaths - cumulative total, Deaths - newly reported in last 24 hours, and Transmission Classification. The table shows 0 cases and deaths for Micronesia (Federated States of).

Name	Cases - cumulative total	Cases - newly reported in last 24 hours	Deaths - cumulative total	Deaths - newly reported in last 24 hours	Transmission Classification
Global	100,455,529	562,001	2,166,440	16,061	
Micronesia (Federated Stat...	0	0	0	0	No cases
