Other provisions

Decree 67/2022, of February 21, 2022

Decree 67/2022, of 2-21-2022, extending Decree 60/2022, of 2-14-2022, of new exceptional measures due to the evolution of the health emergency situation caused by the SARS-CoV-2 coronavirus .

Statement of reasons

The number of active cases continues to drop considerably, a fact that, linked to the decrease in hospital pressure and the high percentage of the immunized population, makes it possible to maintain the health measures in force until now pending new indicators that allow them to be more flexible.

The Government's intervention is based on the provisions of the General Health Law, of March 20, 1989, and of Law 30/2018, of December 6, classified as public security, in the terms established by Law 19 /2020, of December 23, which modified them.

In this context, the extension is established, until March 2, 2022, of the measures adopted by [Decree 60/2022](#) , of 14-2-2022, of new exceptional measures due to the evolution of the health emergency situation caused by the SARS-CoV-2 coronavirus, although it may change depending on the evolution of the pandemic.

For everything that has been presented, at the proposal of the Minister of Health, the Government, in the session of February 21, 2022, approves this Decree with the following content:

Single item. Extension of exceptional measures

[Decree 60/2022](#) , of 14-2-2022, of new exceptional measures due to the evolution of the health emergency situation caused by the SARS-CoV-2 coronavirus, is extended until March 2, 2022 .

Final provision

This Decree enters into force on February 22, 2022.

Which is made public for general knowledge.

Andorra la Vella, February 21, 2022

Xavier Espot Zamora
Head of Government
