HOME TRAVELLER GUIDE CORONAVIRUS PAS...

Travelling abroad: restrictions from and to Morocco

Before travelling abroad from and to Morocco, you have to check with your airline and the public institutions (embassies, consulates, local authorities, etc.) if specific measures are required. In case of cancellation, modification or postponement of a trip, contact your airline or your tour operator directly.

This information below is provided solely as an indication

01 January 2023

As part of the preventive measures against the spread of the corona virus, the Moroccan authorities have decided to prohibit access to the national territory to all passengers from China regardless of their nationality, starting from Tuesday, January 03, 2023 and until further notice.

Only passengers who have left China 7 calendar days before their arrival in Morocco will be admitted to the Moroccan territory

30 September 2022

Following the decision of the Moroccan authorities, the health restrictions (PCR or Vaccinal Pass) at the entrance to Moroccan territory are lifted starting from today. Only the passenger's health form must be presented duly completed.

26 May 2022

New travel conditions to enter the national territory :

The valid **COVID - 19 vaccine passport** (administration of three doses or, only two doses, the administration time of the 2nd not exceeding 4 months, with the exception of the Johnson & Johnson vaccine, where a single dose is equivalent to 2 doses of the other vaccines)

Or

Negative result of PCR test of less than 72 hours (time between sampling and boarding).

And

Passenger's health form, to be downloaded online before boarding (also distributed on board), duly completed [LINK](#);

Concerning children:

For children from 12 to 18 years old : a valid vaccination passport means receipt of two doses.

No access conditions are applied for children under 12 years old;

18 May 2022 (04:15 pm)

New travel conditions to enter the national territory :

The valid **COVID - 19 vaccine passport** (administration of three doses or, only two doses, the administration time of the 2nd not exceeding 4 months, with the exception of the Johnson & Johnson vaccine, where a single dose is equivalent to 2 doses of the other vaccines)

Or

Negative result of PCR test of less than 72 hours (time between sampling and boarding).

And

Passenger's health form, to be downloaded online before boarding (also distributed on board), duly completed [LINK](#);

Concerning children:

No access conditions are applied for children under 12 years old;

18 May 2022 (09:30 am)

New travel conditions to enter to the national territory for passengers over 6 years old :

The **COVID - 19 vaccine passport**

OR

Negative result of PCR test of less than 48 hours (time between sampling and boarding).

And

Passenger's health form, to be downloaded online before boarding (also distributed on board), duly completed, including the passenger's address and two telephone numbers allowing him to be located, if necessary, during the 10 days following his arrival on the national territory

[LINK](#)

;

Concerning children:

No access conditions are applied for children under 6 years old;

01 March 2022

Upon arrival at Moroccan airports, screening tests are no longer systematic for all passengers. The rapid antigen test is performed randomly.

03 February 2022

New travel conditions starting from 07/02/2022

1. To leave the national territory :

The booster dose (D3) is required, if the second vaccine dose (or that of the single dose of the J&J vaccine) dates back to more than four months;

For people who have not received a booster dose and who have recently recovered from COVID-19, the 3rd dose can only be administered after 4 weeks (28 days) from the infection date. Thus, these people can leave the territory with :

Their old vaccination pass accompanied by a recovery certificate or a negative PCR test

And the result of the PCR or antigen test documenting the last infection

2. To enter the national territory:

The **COVID - 19 vaccine passport and negative result of PCR** test of less than 48 hours (time between sampling and boarding) are **mandatory**.

And

Passenger's health form, to be downloaded online before boarding (also distributed on board), duly completed, including the passenger's address and two telephone numbers allowing him to be located, if necessary , during the 10 days following his arrival on the national territory

[LINK](#)

;

Upon arrival :

Rapid, systematic antigen testing at the airport and random sampling for random PCR testing will be carried out;

If the rapid antigen test is negative: nothing to report.

If the rapid antigen test is positive upon arrival:

If the person is asymptomatic or mild symptoms : treatment in self-isolation at home, or in a hotel for tourist, according to the national protocol in force;

If the person has moderate to severe symptoms: treatment in a public or private hospital according to the national protocol in force.

Concerning children:

No access conditions are applied for children under 6 years old;

For children aged 6 and under 18: the only access condition is the presentation of a negative result of PCR test of less than 48 hours, in addition to a rapid antigen test upon arrival.

27 January 2022

The Moroccan authorities have announced the resumption of international flights to and from Morocco from 7 February 2022.

24 December 2021

Moroccan Authorities decided to extend the suspension of all passenger flights to and from Morocco until January 31, 2022.

13 December 2021

The Moroccan authorities authorize, exceptionally, passenger flights to the Kingdom from the following countries: Portugal, Turkey and the United Arab Emirates.

This decision comes in order to allow the return to Morocco of Moroccan citizens who actually reside in the Kingdom and who were stranded following the suspension of flights.

This operation, which will begin on Wednesday, December 15, concerns exclusively Moroccan citizens who are effectively resident in Morocco and who have recently left the national territory.

The travel costs are borne by the beneficiaries. The applied health protocol will be as follows:

Each passenger will be required to present a PCR test less than 48 hours old prior to boarding;

The passengers will be locked down for 7 days in dedicated hotels, at the expense of the Moroccan government;

PCR tests will be performed during the lockdown period every 48 hours;

Anyone tested positive at the airport or hotel will be taken care of by the appropriate health authorities

09 December 2021

Moroccan Authorities decided to extend the suspension of all passenger flights to and from Morocco until December 31 at 11:59 pm

28 November 2021

The Moroccan authorities have decided to suspend all passenger flights from and to Morocco, for two weeks, starting from Monday, November 29, 2021 at 11:59 p.m.

26 November 2021

CONDITIONS OF ACCESS TO MOROCCAN TERRITORY

For passengers coming from countries on the list "A":

Passengers coming from these countries, can have access to the Moroccan territory upon producing:

The health form, duly filled in and signed, in particular the passenger's address and two telephone numbers allowing them to be located, if necessary, during the 10 days following their arrival on national territory; (to be downloaded online before boarding, also distributed on board the aircraft);

A certificate attesting that the passenger is fully vaccinated against SARS-CoV-2 (at least two weeks after the administration of the 2nd dose of the vaccine or the one-dosevaccine);

List A

For passengers coming from countries on the list "B":

Passengers coming from these countries, can have access to the Moroccan territory upon producing :

The health form, duly filled in and signed, in particular the passenger's address and two telephone numbers allowing them to be located, if necessary, during the 10 days following their arrival on national territory; (to be downloaded online before boarding, also distributed on board the aircraft);

A certificate attesting that the passenger is fully vaccinated against SARS-CoV-2 (at least two weeks after the administration of the 2nd dose of the vaccine or the one-dosevaccine);

A negative PCR certificate not exceeding 48 hours at the time of boarding (interval between sampling and boarding).

List B

For passengers coming from countries on the list "C":

Prohibition of access to Moroccan territory for passengers coming directly from countries on list C or transiting through another country.

List C

Upon arrival in Moroccan territory, passengers will be subject to:

Double temperature control, systematic

Random control by rapid antigenic test

In case of rapid antigen test positivity on arrival:

Moroccans and foreigners residing in morocco who test positive on arrival in morocco will be taken care of by a health facility, with 10-day confinement according to the health protocol in force;

Any other passenger who tests positive on arrival will not be allowed to enter the national territory and must return immediately to the country of origin at the total expense of the air transport company.

NB :

The above access conditions apply to anyone aged 12 and over;

Children aged 6 to 11 years old must present a negative PCR, regardless of their country of origin;

Children under the age of 6 are exempted from any access conditions.

26 November 2021

The Moroccan authorities have decided to prohibit access to the national territory to nationals of South Africa and other countries of Southern Africa as well as to passengers coming from or transiting through these countries. This decision concerns, in addition to South Africa, Botswana, Namibia, Lesotho, Eswatini, Mozambique and Zimbabwe.

26 November 2021

Update :

The suspension of scheduled passenger flights to and from France is postponed to November 28, 2021 at 11:59 p.m. instead of November 26, 2021 at 11:59 p.m.

25 November 2021

The Moroccan authorities decide to suspend regular passenger flights to and from France starting from November 26, 2021 at 11:59 p.m., until further notice.

21 November 2021

CONDITIONS OF ACCESS TO MOROCCAN TERRITORY

For passengers coming from countries on the list "A":

Passengers coming from these countries, can have access to the Moroccan territory upon producing:

The health form, duly filled in and signed, in particular the passenger's address and two telephone numbers allowing them to be located, if necessary, during the 10 days following their arrival on national territory; (to be downloaded online before boarding, also distributed on board the aircraft);

A certificate attesting that the passenger is fully vaccinated against SARS-CoV-2 (at least two weeks after the administration of the 2nd dose of the vaccine or the one-dosevaccine);

List A**For passengers coming from countries on the list "B":**

Passengers coming from these countries, can have access to the Moroccan territory upon producing :

The health form, duly filled in and signed, in particular the passenger's address and two telephone numbers allowing them to be located, if necessary, during the 10 days following their arrival on national territory; (to be downloaded online before boarding, also distributed on board the aircraft);

A certificate attesting that the passenger is fully vaccinated against SARS-CoV-2 (at least two weeks after the administration of the 2nd dose of the vaccine or the one-dosevaccine);

A negative PCR certificate not exceeding 48 hours at the time of boarding (interval between sampling and boarding).

List B**Upon arrival in Moroccan territory, passengers will be subject to:**

Double temperature control, systematic

Random control by rapid antigenic test

In case of rapid antigen test positivity on arrival:

Moroccans and foreigners residing in morocco who test positive on arrival in morocco will be taken care of by a health facility, with 10-day confinement according to the health protocol in force;

Any other passenger who tests positive on arrival will not be allowed to enter the national territory and must return immediately to the country of origin at the total expense of the air transport company.

Children under 12 can travel to Morocco, exceptionally, without the obligation of a negative PCR test or vaccination certificate. They will be subjected to a rapid antigenic control on arrival.**17 November 2021**

Morocco Strengthens Control Mechanism for Access to Territory

20 october 2021

Suspension by the Moroccan authorities, from 10/20/2021 at 11:59 p.m. and until further notice, of flights to and from:

Germany

Netherlands

UK

Resumption of flights to and from Morocco starting from June 15, 2021: discover the new access conditions to Moroccan territory (updated 20 october 2021)

The Moroccan authorities have drawn up two lists (list A and list B) classifying the countries on the basis of their epidemiological situation. The "A" and "B" lists are published on the electronic sites of the ministries responsible for Foreign Affairs, Health and Tourism. They will be updated regularly at least twice a month as needed:

Ministry of Foreign Affairs African Cooperation and Moroccan Expatriates

Ministry of Health

Ministry of Tourism, Handicrafts, Air Transport and Social Economy

Travelers from countries on list "A": Can access Moroccan territory if they have:

- A certificate attesting that the person is fully vaccinated with one of the vaccines listed below (two weeks after the second dose of the vaccine or the one-dose-vaccine are required to consider that immunity has been acquired)

OR

- For people not or incompletely vaccinated: a negative PCR test (less than 48 hours before boarding);

- Passenger health form to be downloaded online before boarding (also distributed on board), duly filled in, in particular the passenger's address and two phone numbers allowing him to be located, if necessary, during the 10 days following his arrival on the national territory.

List of vaccines accepted in Morocco :

AstraZeneca

Sinopharm

Sputnik

Pfizer / BioNTech

Janssen (Johnson & Johnson)

Covishield (Serum Institute of India)

Moderna

Sinovac

Travelers from countries on list "B":

All travelers from list B must present : the fully completed health form, a negative PCR test of less than 48 hours (time between sampling and boarding) and :

1 - For fully vaccinated passengers :

o A certificate attesting that the person is fully vaccinated with one of the vaccines below (at least two weeks after the administration of the second dose of the vaccine or the one dose vaccine) ;

AND

o A negative PCR test **of less than 48 hours** (interval between sampling and boarding);

2 - For incompletely vaccinated or unvaccinated passengers :

2- 1 - Foreign passengers :

A negative PCR test of less than 48 hours (interval between sampling and boarding) ;

An affidavit, fully filled and signed ;

A voucher ensuring the payment of 10 days of quarantine at one of the hotels designed by the local authorities, with a control PCR test on the 9th day ;

2- 2 - Moroccan passengers, members of their families (spouses, ascendants and descendants) and foreigners residing in Morocco :

A negative PCR test of less than 48 hours (interval between sampling and boarding)

An affidavit, fully filled and signed, mentioning an undertaking to self-isolation at home for 5 days, with a screening test (rapid antigen or PCR) on the 5th day

[\(LINK\)](#)

Are not affected by the quarantine, the passengers coming from countries of list B, having stayed in a country of list A, 10 days or more before their arrival in Morocco.
